

# Plastic free Christmas Decorations

Make your own using natural materials

## Hazel wood Discs

Saw off a stick of hazel. Then saw off some discs to make the decorations.

Drill a small hole in the top of the disc.

Using pen or paint, decorate the wood with Christmas themed pictures or letters.

Feed a piece of string or ribbon through the hole and tie it in a knot.

## Pine Cone Baubles

Collect some pine cones from a nearby wood.

Attach a piece of string to the top of the pine cone and tie to make a loop.

Tie a ribbon to the top of the pine cone and hang on the tree.

Instead of tinsel, attach several pinecones onto a piece of string and drape around the tree.
