KIDS against PLASTIC

Plastic Clever Families

Encouraging the use of reusable items

Family members will ...

1: Use refillable mugs for hot beverages

Take your refillable mug or cup whenever you buy a hot drink to take-out and stop using the non-recyclable cups that usually end up in landfill.

You will probably be eligible for a discount!

2: Use a reusable water bottle

Get yourself a reusable water bottle and USE it!

Ask for refills of tap water at cafes and bars, and NEVER buy plastic bottled water AGAIN.

3: Carry a reusable straw

Whenever you go anywhere where you might buy a drink (soft or alcoholic) take your re-usable straw and get used to saying:

"No straw, please"

4. Carry a Bag for Life

Keep a re-usable bag with you at all times and you find it easy to stop using single-use carrier bags.

You'll save money, too!

5. Carry sustainable cutlery with you so you can stop using nasty single-use plastic ones which just look so chav-ish!
