

BRITISH COASTS CROSSWORD!

There are many sea creatures that live in the shallows around our coasts.
Can you use the clues below to fill in the crossword?

Across

- Be careful when you are paddling. These fish have a painful sting!
- This flatfish has orange spots and loves to hide in the sand.
- Plumose _____ are colourful animals with stinging tentacles.
- _____ starfish are called this due to their protective spines!

Down

- You might like to wear these when you go rock pooling so that your feet don't get wet!
- Small spotted _____ lay shark eggs called mermaid's purses.
- As limpets move across the rocks they leave a trail of _____! This helps them to find their way back to their home scar.
