

# BE PLASTIC CLEVER

A PLASTIC CLEVER EMPLOYEE...

## Doesn't Buy or Use Single-use Plastic Bottles

Instead of buying water in single-use plastic bottles use a reusable cup, glass or beaker and fill it up using tap water; it's better for the environment and will save you money. Pretty clever right?

## Refuses to Use Plastic Straws

Don't let anyone put a plastic straw in your drink without you asking for one!

Chances are you don't actually need one to drink your drink - EVER - so, when you order, please insist 'No straw please'. It's the clever option for the environment.

## Doesn't Drink Coffee From Takeaway Cups

Whenever you buy a coffee on-the-go, use a refillable mug or cup. Make it your intention to NEVER drink another coffee from non-recyclable, throw-away cup AGAIN!

## Never Accepts a Single-use Plastic Bag

Single-use plastic bags really are a thing of the past. With 'bags for life' so readily available, who needs a single-use plastic bag anyway?

Not you! You're way too plastic clever for that nonsense anyway.
